Available Now - 2-Year Warranty ORMEC Repair Services

January 2, 2017– Rochester, New York, USA – ORMEC is pleased to announce an enhancement to its Manufacturing Repair program. Now all repairable items returned to ORMEC will receive a 2-Warranty again manufacturer defects.

“It makes sense to apply the same 2-year warranty reserved for new ORMEC products to items sent to ORMEC for repair. We do all the same tests, including an 8-hour high temperature burn-in under full load”, states Chris Sufliita who is ORMEC’s Lean Manufacturing Manager.

The 2-year warranty for repairs is just another aspect of ORMEC’s long-term commitment to their customers

About ORMEC

ORMEC’s industry experts provide motion control solutions in the aerospace, automotive, energy, medical, pharmaceutical, food and beverage, textile, paper, packaging, metal forming and converting industries. Our systems excel in the most demanding applications including packaging, converting, labeling, web and material handling, as well as general assembly and winding.

Our highly reliable motion control solutions integrate motion controllers, logic control, servo drives, servo motors, linear motors, actuators, HMIs, and I/O into cost-effective factory automation solutions. ORMEC provides application expertise and systems solutions for all types of motion control challenges and offers a team of Systems and Applications Engineers with over 80 years of motion control experience. The company continues to be a leader in the development of motion control solutions and technology, including being the first to introduce an industrial motion control system using a high-speed FireWire network.
